

BOW CANOPY AWNING

Canopies are a fabric covering applied over an aluminium skeletal frame that can be situated over windows, doors, walkways, etc.

They add the finishing touch to any building with their wide selection of fixed or retractable shapes to suit just about any style.

Canopies can also be used to promote your shop, restaurant or business with added sign writing and increase awareness by incorporating illuminate lighting.

Canopies are envied in the domestic or commercial market for adding that touch of European style to the home or commercial buildings such as motels, hotels, resorts, restaurants, recreational centres, shop fronts, etc.

Make a statement of your doorways and windows with adding the touch of European style with Melbourne Shade Systems' Bow Canopies.

Florentine Bow Canopy can be fixed frame or fold-up. Various fabric types in many colours available. Add scalloped valance to bold stripes for the Mediterranean look.

Sizes available from 900mm to 3600mm wide diameter
